

Email Marketing is a proven way for a business to build direct and long lasting relationship with its customers, increase customer retention and grow brand loyalty, thus increasing profits!

Customer Database is an essential ingredient of any Direct Marketing efforts. Collecting customer opt-in data has been a challenge for physical store-front businesses until now with paper enrollment sheets and comment cards.

Sterizon wiZit handheld device with **wiEmailList** allows store-front businesses to electronically collect in-person customer email opt-in information for **E-Club, Email List, and Newsletter List** etc in-store, at the point of experience in a simple, efficient, effective and effortless manner.

- ✓ Customer opt-in data is instantly saved in to your email list over WiFi/Internet.
- ✓ Welcome Email usually sent within few minutes of customer opt-in.
- ✓ Say good bye to paper opt-in sheets and enrollment cards. No more manual data entry!
- ✓ Setup your Birthday and Welcome Email Auto Responders.
- ✓ Online Web Portal access to setup, view, analyze and act on the gathered customer information.
- ✓ Keep your full service or self service email marketing provider as Sterizon wiZit integrates out of the box with all major providers.
- ✓ Built in support for multi-unit chain businesses and franchises.
